## **Introduction**

In our Coastal University website our team was able to showcase the University Web Registration System. This registration system is not only structured efficiently which makes the user experience smooth, but this also allows our team to make any changes to the backend very quickly and efficiently. The front end is built on HTML/CSS, while our backend is built on PHP. The website is structured around the users and their specific roles, such as a Researcher, Student, Faculty or Admin Member. Each user has a specific role assigned to them which will dictate the different information they can see or power they have. For example, the student role will not be allowed to modify grades, only a faculty or administrator can. With our team understanding the importance of a system such as a Registration System, we have done our best to ensure that the user experience is seamless and easy to understand. The system is also coded in a straightforward way which allows us to easily debug and fix any errors that may arise.

## **Different Roles**

### **Visitor**

A visitor's role is given the least amount of power in our system. This means that they'll only be able to see and do very limited tasks. For example, a visitor will not be allowed to update any information that has to do with registering as they are not yet a student to the system. A visitor can only view a few select pages such as the Homepage, Academic Calendar, Departments, Majors & Minors, Master Schedule, as well as the Login page. That concludes everything that a visitor role will be able to access.

### **Researcher**

A researcher not only has the same powers as a visitor, but they also have an account that they can log into.

### **Student**

A student will also be granted the same powers as a visitor but from the login page they will have their own account which they can access. Once the student is signed in with that role they can access a lot more information, but still not to the extent that the Faculty and Admin have. Students can Add/Drop Courses, View the courses offered, Holds they might have, and Declare their Minor/Major. Being that it is very important for a student to be able to register for courses, something very important that a Student also has access to is their Degree Audit. This will allow the student the ability to keep track of what courses they can register for next semester. It will also give them a clear understanding of their academic standing when it comes to their grades.

## **Faculty**

A faculty member will once again have the same powers as a visitor and will have their own account that they can log into. Once logged into their account, the faculty member will be able to access/update information about courses they teach and their students. Some powers that this role is granted is the ability to assign grades to students, change their student's attendance and advise the students they're assigned to. Although a faculty member can assign grades, there is still a time window in which grades must be submitted into the system, in the case it is not in the time window an administrator will need to manually make the change. Moreover, a faculty member will also be able to look at their student list per class as well as search up a specific student in one of their classes.

## **Administrator**

And lastly what would be the most important role in the span of the system, the Admin role. This role obviously is the most important as they can modify mostly anything that is available in the database. This means they can view and edit information from all the other users in the system. Along with being able to do this for all the users in the system, they can also do it with anything that has to do with grading. Such as Creating/Removing courses, Assigning Grades, advisors as well as any Prerequisites a class might have. The Admin is essentially in control of the entire system as they can change everything except for grades at any given time. It makes it extremely important to have a fully functioning System as the Admin needs to be able to access all of this information at any given moment.

# System Screenshots

## VISITOR PAGES Coastal University Home Page

*This is the first page that the user is greeted with upon entering the website. There is a top navigation bar that allows the user to navigate around the website. There is also a footer at the bottom of the page with the names and information of our team members as well as a copyright text.*

# Academic Calendar

## Fall Term: August 31 - December 21, 2022

August 22 Monday Advising for all students  
August 27 Saturday Residence Halls Open  
August 31 Wednesday First Day of Classes  
September 05 Monday Labor Day: NO CLASSES  
October 10 Monday Indigenous Peoples' Day: NO CLASSES  
October 12 Wednesday Midterm Week  
October 19 Wednesday Last Day to File for Withdrawal  
October 19 Wednesday Midterm exam grades due  
November 01 Tuesday Spring 2023 registration begins  
November 08 Tuesday Election Day: CLASSES IN SESSION  
November 11 Friday Veterans Day: CLASSES IN SESSION  
November 24 - Thursday - Thanksgiving Recess: NO CLASSES  
November 26 Saturday  
November 28 Monday Classes resume  
December 15 Thursday Final exam grades due  
December 21 Wednesday Final day of Fall Semester

## Spring Term: January 25 - May 19, 2023

January 23 Monday Advising for all students  
January 24 Tuesday Residence Halls Open  
January 25 Wednesday First Day of Classes  
February 20 Monday Presidents Day: NO CLASSES  
March 08 Wednesday Midterm Week  
March 15 Wednesday Last Day to File for Withdrawal  
March 15 Wednesday Midterm exam grades due  
March 18 - Saturday - Spring Break: NO CLASSES  
March 24 Friday  
March 27 Monday Fall 2023 registration begins  
March 27 Monday Classes resume

*The academic calendar page will show the user the current semester and next semester's academic calendar. This can be accessed by anyone that visits the website.*

The master schedule page shows the user all the courses Coastal University has to offer. There is a search function implemented that allows the user to search for a specific Course\_Section. You can input any of the values from any column, meaning you can search by any category.

## Login Page

The screenshot shows a login form for Coastal University. At the top, there is a navigation bar with links for HOME, ACADEMIC CALENDAR, DEPARTMENTS, MAJORS & MINORS, MASTER SCHEDULE, and LOGIN. Below the navigation bar is the title "Login Form". The form itself has fields for Email (with placeholder "Enter Email") and Password (with placeholder "Enter Password"). There is also a dropdown menu for "Select User Type" set to "Admin". At the bottom of the form are three buttons: "Remember me" (unchecked), "Reset" (orange background), and "Forgot password?".

Select a Course to add as a Prerequisite

Select Course

All Prerequisites for 'Principles of Accounting 2'

Course Number	Course Name	Credits	Department Name	Remove Prerequisite
3502	Principles of Accounting 1	4	Accounting & Taxation	Remove

This page will allow the admin to add/remove the prerequisite of the selected course.

**Cannot add a duplicate Prerequisite Course to Course 'Principles of Accounting 2'**

[Return](#)

This displays if the user tries to add the same prerequisite course.

**Course 'Principles of Accounting 2' Already Has 3 Prerequisites. Cannot add any more.**

[Return](#)

This displays if the user tries to assign more than 3 prerequisites to a single course.

## Add a prerequisite

Select a Course to add as a Prerequisite

All Prerequisites for 'Principles of Accounting 2'

Course Number	Course Name	Credits	Department Name	Remove Prerequisite
3502	Principles of Accounting 1	4	Accounting & Taxation	<input type="button" value="Remove"/>

Using the drop-down menu at the top, the admin can select a course that they wish to add as a prerequisite to the selected course.

### Prerequisite Course Has Been Successfully Added to Course 'Principles of Accounting 2'

Successful prerequisite added message: 'Prerequisite Course Has Been Successfully Added to Course'.

### Cannot add a duplicate Prerequisite Course to Course 'Principles of Accounting 2'

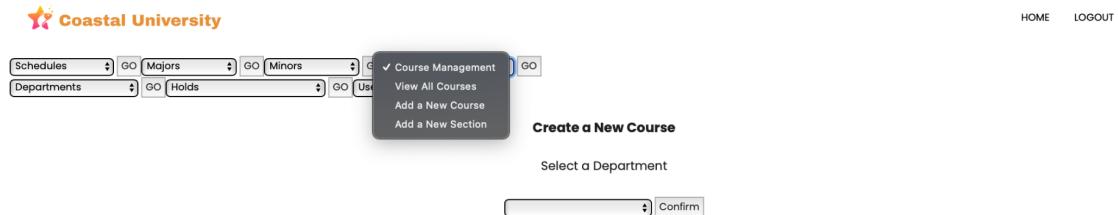

If the admin tries to add the same prerequisite, the system will give this error: 'Cannon add a Duplicate Prerequisite Course to Course'.

## Remove a prerequisite

Remove Prerequisite	
	<b>Remove</b>
	<b>Remove</b>

Using the 'Remove Prerequisite' button, the admin can remove the prerequisite from the selected course. Once the button is selected, the table will simply update and remove the prerequisite.

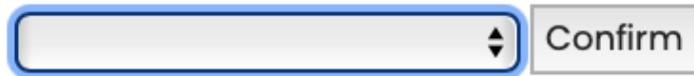

## Adding a new course

*This page will allow the administrator to add a new course into the system.*

## Create a New Course

## View Student Holds

The screenshot shows a web-based student information system. At the top left is the Coastal University logo. To its right are links for 'HOME' and 'LOGOUT'. Below the logo is a navigation bar with dropdown menus for 'Schedules', 'Majors', 'Minors', 'Course Management', 'Departments', 'Holds', and 'User Management', each with a 'GO' button. The main content area is titled 'Student Information' and contains several buttons for managing schedules and student records. A section titled 'View/Add Holds' displays a table with two columns: 'Hold Name' and 'Add Hold'. The 'Hold Name' column lists 'Academic Hold' and 'Financial Hold'. The 'Add Hold' column contains a dropdown menu and a 'Add Hold' button.
